Instructional Personnel Unit

The Okeechobee County Education Association #1604 (OCEA) and the School Board of Okeechobee County (Board) have reached agreement regarding revisions to the weighting of the Instructional Practice Component (IPC) and Student Growth and Achievement (SGA) in the 2014-15 Instructional Evaluation System.

ARTICLE XII Evaluation

F. Value Added/Student Learning Growth/Gain Data

The Evaluation Components ~~Value Added Model (VAM)~~ will be calculated for instructional personnel as follows:

For the 2014-15 school year, the Instructional Practice Component (IPC) will comprise 66.7% of the final summative evaluation and the Student Growth and Achievement (SGA) will comprise 33.3% of the final summative evaluation.

~~1. Student test results (growth data) for the 2011-2012 school year will constitute year one (1) (the beginning year) for the purpose of compiling three (3) years of student growth data for teachers who teach subject areas covered by a state assessment. The 2013-14 school year will constitute year one (1) for teachers who used schoolwide or districtwide scores in previous year(s) and now have scores for the individual students they serve. For teachers who become employed by the district any time after a year one (1) implementation of any approved statewide or local district assessment, that year of employment constitutes their year one (1) for the purpose of compiling three (3) years of student growth data. When three (3) years of data is available, fifty percent (50%) of the teacher's evaluation will be based on the Instructional Practice Component (IPC) and fifty percent (50%) on student learning growth and achievement. When three (3) years of this data is not available for each teacher, the proportions will alter to 60% for IPC and 40% for student growth and achievement.~~
