MEDICAL MARIJUANA

POLICY

- I. Administering Medical Marijuana to Qualified Students on District Property
 - A. The Board strives to comply with state law to honor families' private medical decisions while ensuring a learning environment free of disruption. To accomplish these goals, as a general rule, prescription medication, including medical marijuana, should be administered at home. Prescription medications, including medical marijuana, should only be administered on District property during school hours when administration cannot reasonably be accomplished outside of school hours. The primary caregiver should administer the medical marijuana/low THC cannabis at home whenever possible to qualified students/patients who require the use of medical marijuana/low THC cannabis for a qualifying medical condition.
 - B. In those limited circumstances when it is medically necessary, administration of medical marijuana to qualified students on District property shall be in accordance with this policy. Administration of all other prescription and nonprescription medications to students on District property during school hours shall be in accordance with applicable law and Board policy concerning the administration of medications to students.
 - C. Medical marijuana/low THC cannabis cannot be administered to a qualifying student/patient while aboard a school bus or at a school-sponsored event.
 - D. This policy conveys no right to any student or to the student's parents/guardians or other caregiver to demand access to any general or particular location on school or district property, a school bus or at a school-sponsored event to administer medical marijuana/low THC cannabis.
 - E. If the federal government indicates that the district's federal funds are jeopardized by this policy, or asks the District to cease and desist the implementation of this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical marijuana/low THC cannabis to qualified students on school property shall not be permitted. The District will comply with any federal guidance and/or directives related to this policy. The district shall post notice of such policy suspension and prohibition in a conspicuous place on its website.

- F. Definitions - For purposes of this policy, the following definitions shall apply per Florida Statute:
1. "Student" means an individual enrolled in an Okeechobee County Public School, Pre-K through 12th grade who are subject to compulsory school attendance, as well as students with disabilities 18 through 21 years of age.
 2. "Qualified student/patient" means a student/patient who is a resident of this state who has been added to the medical marijuana/low THC cannabis use registry by a qualified physician to receive marijuana or a marijuana delivery device for a medical use and who has a qualified patient identification card and for whom the administration of medical marijuana cannot reasonably be accomplished outside of school hours.
 3. "Primary caregiver" or "caregiver" must be 21 years of age or older and a resident of this state who has agreed to assist with a qualified patient's medical use of marijuana, has a caregiver identification card and meets the requirements set forth in F.S. 381.986(6).
 4. "Designated location" means a location identified by the District in its sole discretion on school grounds, such as the nurse's office or a building administrator's office. District or school administration determines, in its sole discretion, the location of administration of a permissible form of medical marijuana/low THC cannabis that do not create risk of disruption to the educational environment or exposure to other students.
 5. "Qualified physician" means an individual who holds an active, unrestricted license as an allopathic physician under chapter 458 or as an osteopathic physician under chapter 459 and is in compliance with the physician education requirements set forth in F.S. 381.986(3).
 6. "Permissible form of medical marijuana/low THC/cannabinoid products" means non-smokeable/non-inhalable products such as oils, tinctures, edible products or lotions that can be administered and fully ingested or absorbed in a short period of time. Due to the potential for misuse, vapors, patches or other forms of administration that continue to deliver medical marijuana to a student while at school are not permitted.

II. Permissible administration of medical marijuana to a qualified student on school district property.

- B. A student may express his or her religious beliefs in coursework, artwork, and other written and oral assignments free from discrimination. A student's homework and classroom assignments shall be evaluated, regardless of their religious content, based on expected academic standards relating to the course curriculum and requirements.
- C. A student may not be penalized or rewarded based on the religious content of his or her work if the coursework, artwork, or other written or oral assignments require a student's viewpoint to be expressed.

II. Religious Clothing, Jewelry, and Accessories

A student may wear clothing, accessories, and jewelry that display a religious message or symbol in the same manner and to the same extent that secular types of clothing, accessories, and jewelry that display messages or symbols are permitted to be worn.

- B. Okeechobee County School District must comply with the federal requirements in Title VII of the Civil Rights Act of 1964, which prohibits an employer from discriminating against an employee on the basis of religion.

V. Equal Access to School Facilities

- A. Okeechobee County School District shall give religious groups access to the same school facilities for assembling as given to secular groups without discrimination based on the religious content of the group's expression.
- B. A group that meets for prayer or other religious speech may advertise or announce its meetings in the same manner and to the same extent that a secular group may advertise or announce its meetings.

VI. Limited Public Forum Required for Student Speakers

Okeechobee County School District hereby establishes a limited public forum for student speakers at any school event where a student is to speak publicly. Where student speakers are permitted, the district shall:

- A. Provide the forum in a manner that does not discriminate against a student's voluntary expression of a religious viewpoint on an otherwise permissible subject;
- B. Provide a method based on neutral criteria for the selection of student speakers at school events, activities, and graduation ceremonies;
- C. Ensure that a student speaker does not engage in obscene, vulgar, offensively lewd, or indecent speech; and

SUMMARY

SUMMARY OF ATTESTATION EXAMINATION

Except for the material noncompliance described below involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in ESE Support Levels 4 and 5, the Okeechobee County District School Board (District) complied, in all material respects, with State requirements relating to the classification, assignment, and verification of the full-time equivalent (FTE) student enrollment and student transportation as reported under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2017. Specifically, we noted exceptions involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for 3 of the 16 students in our ESE Support Levels 4 and 5 test.

The District did not report any charter schools; therefore, all our tests relate to District schools other than charter schools and the District's virtual instruction program. Noncompliance related to the reported FTE student enrollment resulted in 9 findings. The resulting proposed net adjustment to the District's reported, unweighted FTE totaled .0000 but has a potential impact on the District's weighted FTE of negative 4.4581. Noncompliance related to student transportation resulted in 6 findings and a proposed net adjustment of negative 43 students.

The weighted adjustments to the FTE student enrollment are presented in our report for illustrative purposes only. The weighted adjustments to the FTE student enrollment do not take special program caps and allocation factors into account and are not intended to indicate the weighted FTE used to compute the dollar value of adjustments. That computation is the responsibility of the Department of Education (DOE). However, the gross dollar effect of our proposed adjustments to the FTE may be estimated by multiplying the proposed net weighted adjustments to the FTE student enrollment by the base student allocation amount. The base student allocation for the fiscal year ended June 30, 2017, was \$4,160.71 per FTE. For the District, the estimated gross dollar effect of our proposed adjustments to the reported FTE student enrollment is negative \$18,549 (negative 4.4581 times \$4,160.71).

We have not presented an estimate of the potential dollar effect of our proposed adjustments to student transportation because there is no equivalent method for making such an estimate.

The ultimate resolution of our proposed adjustments to the FTE student enrollment and student transportation and the computation of their financial impact is the responsibility of the DOE.

THE DISTRICT

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Okeechobee County, Florida. Those services are provided primarily to PK through 12th-grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the SBE. The geographic boundaries of the District are those of Okeechobee County.

The governing body of the District is the District School Board that is composed of five elected members. The executive officer of the Board is the appointed Superintendent of Schools. The District had 12 schools, 1 District cost center, and 2 virtual education cost centers serving PK through 12th-grade students. The District did not report any charter schools.

For the fiscal year ended June 30, 2017, State funding totaling \$30.5 million was provided through the FEFP to the District for the District-reported 6,462.32 unweighted FTE as recalibrated. The primary sources of funding for the District are funds from the FEFP, local ad valorem taxes, and Federal grants and donations.

FEFP

FTE Student Enrollment

Florida school districts receive State funding through the FEFP to serve PK through 12th-grade students (adult education is not funded by the FEFP). The FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system, including charter schools, the availability of programs and services appropriate to the student's educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student costs for equivalent educational programs due to sparsity and dispersion of student population.

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE student enrollment. For brick and mortar school students, one student would be reported as 1.0 FTE if the student was enrolled in six courses per day at 50 minutes per course for the full 180-day school year (i.e., six courses at 50 minutes each per day is 5 hours of class a day or 25 hours per week, which equates to 1.0 FTE). For virtual education students, one student would be reported as 1.0 FTE if the student has successfully completed six courses or credits or the prescribed level of content that counts toward promotion to the next grade. A student who completes less than six credits will be reported as a fraction of an FTE. Half-credit completions will be included in determining an FTE student enrollment. Credits completed by a student in excess of the minimum required for that student for graduation are not eligible for funding.

School districts report all FTE student enrollment regardless of the 1.0 FTE cap. The DOE combines all FTE student enrollment reported for the student by all school districts, including the Florida Virtual School. The DOE then recalibrates all reported FTE student enrollment for each student to 1.0 FTE, if the total reported FTE for the student exceeds 1.0 FTE. The FTE student enrollment reported by the Department of Juvenile Justice for FTE student enrollment earned beyond the 180-day school year is not included in the recalibration to 1.0 FTE.

All FTE student enrollment is capped at 1.0 FTE except for the FTE student enrollment reported by the Department of Juvenile Justice for students beyond the 180-day school year. However, if a student only

has FTE student enrollment reported in one survey of the 180-day school year (Survey 2 or Survey 3), the FTE student enrollment reported will be capped at .5000 FTE, even if FTE student enrollment is reported in Survey 1 or Survey 4, with the exception of FTE student enrollment reported by the Department of Juvenile Justice for students beyond the 180-day school year.

Student Transportation

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live 2 or more miles from school, be classified as a student with a disability under the IDEA, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23 Florida Statutes. Additionally, Section 1002.33(20)(c), Florida Statutes, provides that the governing board of the charter school may provide transportation through an agreement or contract with the district school board, a private provider, or parents. The charter school and the sponsor shall cooperate in making arrangements that ensure that transportation is not a barrier to equal access for all students residing within a reasonable distance of the charter school as determined in its charter. The District received \$1.6 million for student transportation as part of the State funding through the FEFP.
